 Specific methods

the fire.  
 During fire, gases hazardous to health may be formed.  
 Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  
 Cool containers exposed to heat with water spray and remove container, if no risk is involved.  
 Use standard firefighting procedures and consider the hazards of other involved materials.

**6. Accidental release measures**

Personal precautions, protective equipment and emergency procedures  
 Methods and materials for containment and cleaning up

Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.  
 Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place in containers. Following product recovery, flush area with water.  
 Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Environmental precautions

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.  
 Avoid discharge into drains, water courses or onto the ground

**7. Handling and storage**

Precautions for safe handling  
 Conditions for safe storage, including any incompatibilities

Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Use only in well-ventilated areas.  
 Keep away from heat and sources of ignition. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
